Subject: RE: Gold King Water chemistry - current as of increased flow

Hi Steve,

I have not received results from the July 15th samples yet, ESAT is still processing them. Jan sent a report comparing pretreatment water last year to the effluent sample I submitted.

Thanks,

Elliott

Elliott,

Please let me know what you can on the chemistry from the mine before treatment. Not sure what we have received in data reports on current samples.

Please compare it to the previous data sets – seasonally.

THanks

Steven Way
